An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 25, line 1, changed "22" to --23--;

In claim 26, line 1, deleted "decorative" and "wheel" and, changed "22" to --23--;

In claim 27, line 1, changed "22" to --23--;

In claim 28, line 1, changed "22" to --23--.

The following is an examiner's statement of reasons for allowance: as in the related application (now U.S. Patent No. 6,866,457), the prior art does not disclose a caped nut or method of making the caped nut wherein the cap has cylindrical portion with an inside diameter dimensioned for elastic deformation forming at least a 0.002 inches interference fit around a cylindrical portion of the nut for providing a tensile hoop stress to hold the cap on the body. Although, claim 23 is similar to claim 1 of the '457 patent, it is different in scope by not requiring the deformation to be radial in paragraph f).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
